

ESPOT WEB APPLICATION

WEBPAGE DESCRIPTION :

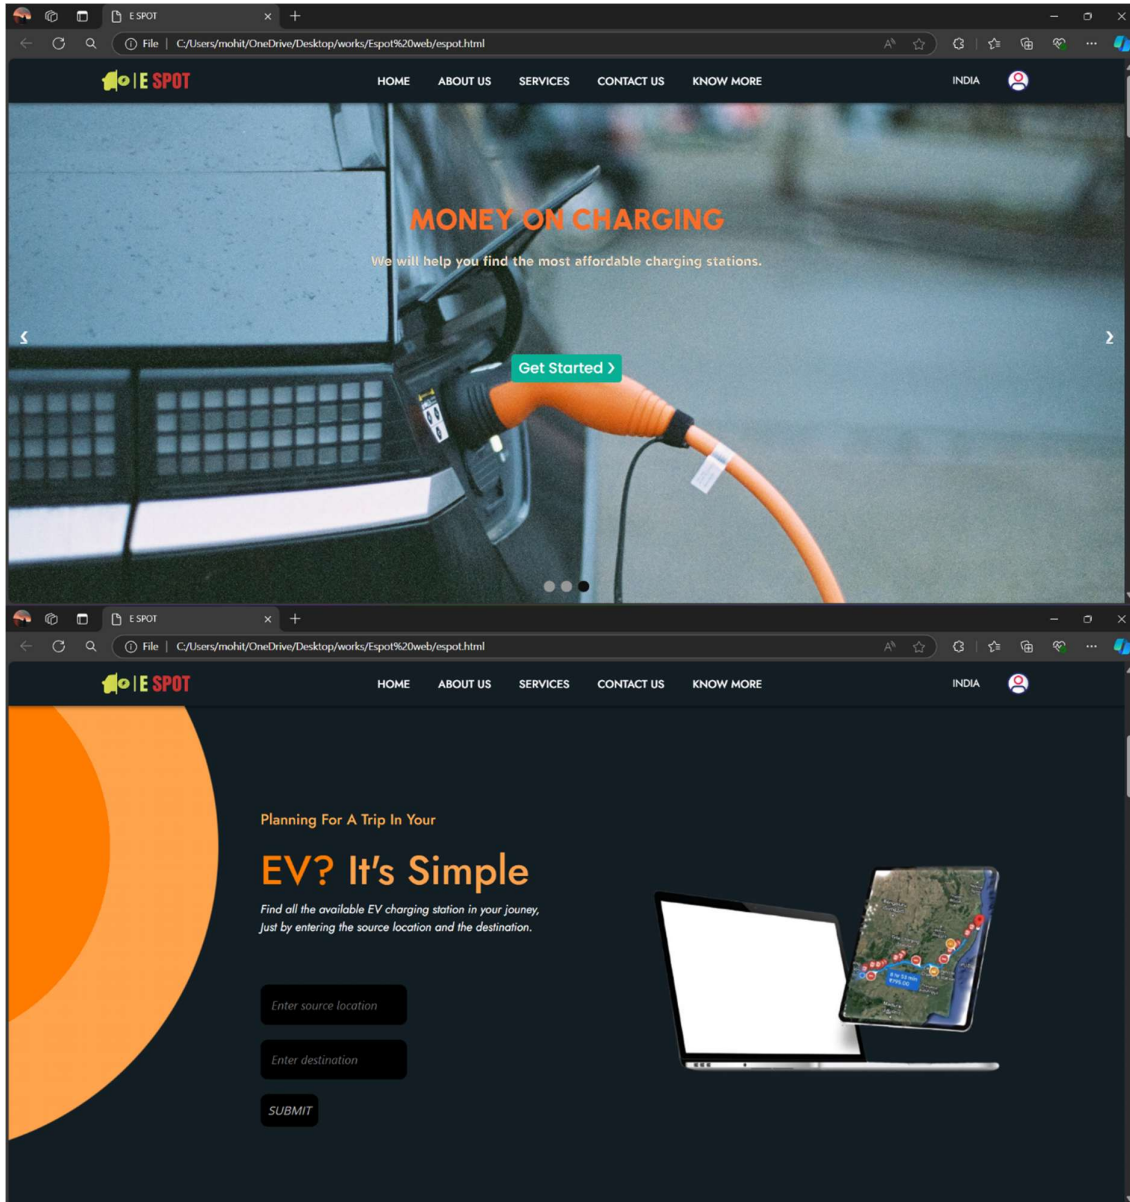

I'm building a website that helps promote sustainable transportation through electric vehicles (EVs). The website aims to make journeys smoother and safer for EV users by providing a detailed trip plan. It shows all the EV charging stations available along the user's route and calculates how many charges are needed to reach the destination, based on the EV's range.

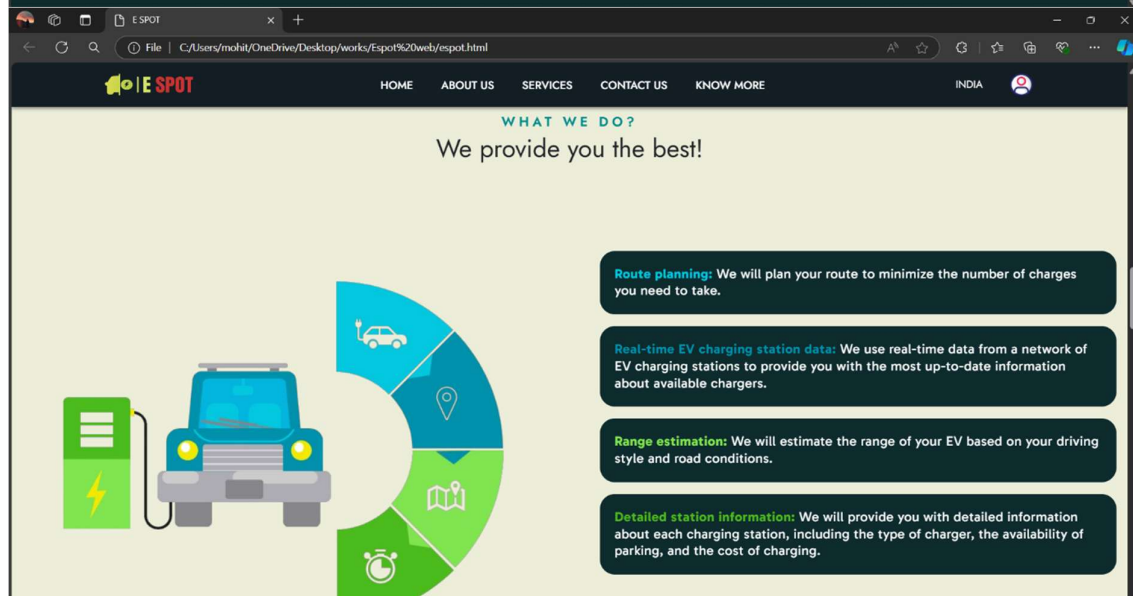

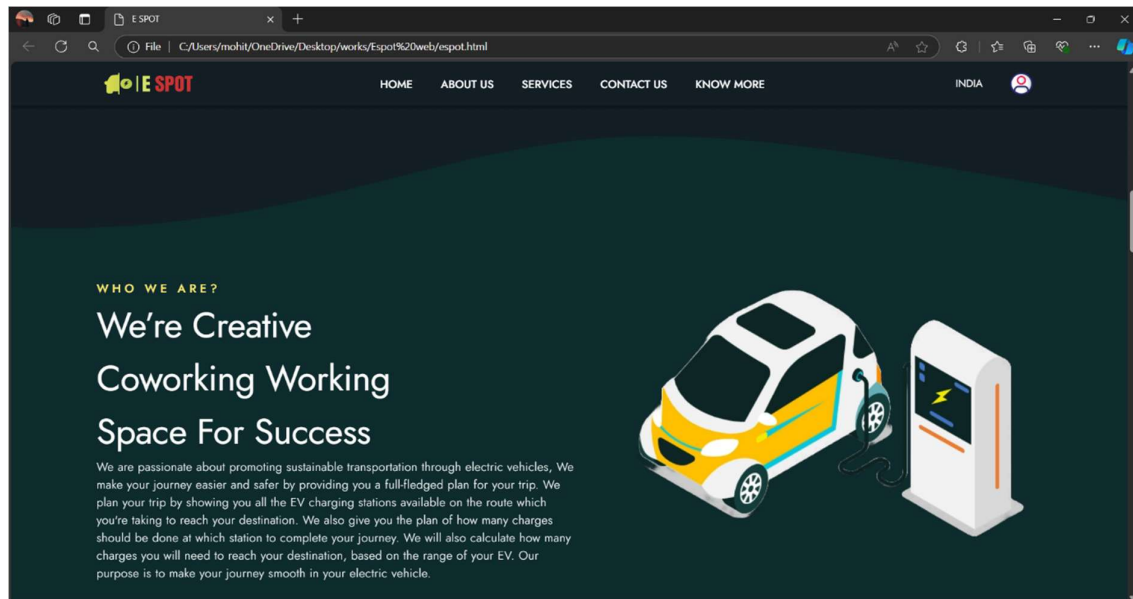

The core functionality includes planning the route, suggesting charging stations, and providing recommendations on where and how many times to charge to complete the journey efficiently. The goal is to enhance the user's experience by making their EV trips as seamless and stress-free as possible.

JavaScript:

JavaScript code for follow-us section :

```

document.addEventListener('DOMContentLoaded', function () {

    const imageContainers = document.querySelectorAll('.follow-box .image-container');

    imageContainers.forEach(function (container) {

        container.addEventListener('mousedown', function () {

            container.classList.add('dragging');

        });

        container.addEventListener('mouseup', function () {

            container.classList.remove('dragging');

        });

    });

});

```

```

        container.addEventListener('mouseleave', function () {
            container.classList.remove('dragging');
        });
    });
});

function toggleText(imageNumber) {
    // Hide all texts initially
    hideAllTexts();

    // Toggle the visibility of the text for the clicked image
    var textId = "text" + imageNumber;
    var textElement = document.getElementById(textId);
    textElement.classList.toggle("hidden");
}

function hideAllTexts() {
    // Hide all text elements
    var textElements = document.querySelectorAll('.icon-container p');
    textElements.forEach(function(element) {
        element.classList.add('hidden');
    });
}

```

JavaScript code for review slider section :

```

document.addEventListener("DOMContentLoaded", function () {
    const reviewContainer = document.querySelector(".review-container");
    const reviewBoxes = document.querySelectorAll(".review-box");
    let currentIndex = 0;

    function nextSlide() {
        currentIndex = (currentIndex + 1) % reviewBoxes.length;
        updateTransform();
    }

    function updateTransform() {
        const translateValue = -currentIndex * 30 + "%"; // 30% is the width of
each box
        reviewContainer.style.transform = `translateX(${translateValue})`;
    }

    // Clone all review boxes and append them to the end
    const reviewBoxClones = Array.from(reviewBoxes).map((box) =>
box.cloneNode(true));

```

```

reviewBoxClones.forEach((clone) => reviewContainer.appendChild(clone));

// Automatically slide every 3 seconds
setInterval(nextSlide, 3000);
});

```

JavaScript code for Home page slider section :

```

var slideIndex = 0;
var interval;
